

CES Innovations 2008 Awards Honorees **Honoree Category: High Performance Audio**

About the International CES Innovations Design and Engineering Awards: Since 1989, the prestigious Innovations Design and Engineering Awards have given consumer technology manufacturers and developers an opportunity to have their newest products judged by a preeminent panel of independent industrial designers, independent engineers and members of the trade press.

ESOTERIC

Esoteric Model: MG-10

<http://www.teac.com/esoteric/Loudspeakers.html>

Awarded for: New technical application of magnesium alloy (96% Mg), diaphragms for all individual driver components. Custom coatings, piston, wiring and cabinetry were also developed to assist in the elimination of acoustic “coloration.” This is the world’s first all magnesium compound diaphragm loudspeaker (Woofer, tweeter and caps).

CES 2008 locations were: The Venetian Hotel Towers Esoteric suite 34-307 and the CEA Innovations 2008 Pavilion Exhibit at the Sands Convention Center.
